

Rallybio Incorporated!

January 5, 2018 at 8:00 AM EST

It's official! After months of planning, Martin, Steve and I have officially founded Rallybio, LLC. It is our hope that we are able to create a world-leading biotechnology organization that transforms the lives of patients with devastating diseases and built around people with an outstanding track record in pharmaceutical research and development.

The patients need us – the time is now – and we must get started.
